What Makes Canopy Home Furnishings Different

- Quality
 - Durable furniture made of solid hardwood with birch veneer, a construction that increases furniture's strength.
 - Designed with unique touches such as a dining room table with built-in storage, a console table with drawers that convert to shelves and a coffee table with a pull-out tray.

- A 9-step finishing process that includes careful sanding, brushing and highlighting to give each piece beauty, strength and luster.
- HardCoat topcoat, formulated just for Canopy by Valspar, defends against spills, stains and scratches so furniture stands the test of time – even in an active household.
- Style
 - Classic, timeless colors and styles that work with nearly everything in the home.
 - Multi-functional, versatile furniture pieces, many of which work in different rooms for different uses.
 - All wood furniture comes in two finishes, warm chestnut and rich mahogany. The chestnut-finish pieces come with antiqued-bronze knobs and wooden knobs; the mahogany-finish pieces come with brushed nickel knobs and wooden knobs.
